CAREER OBJECTIVE

MCA student with a BCA background and a keen interest in software development, database management, and backend technologies. Currently learning JavaScript, Node.js, and modern web development concepts while working on academic projects. Seeking an internship opportunity to gain practical experience, contribute to real-world projects, and further develop technical skills.

EDUCATION

QUALIFICATION	YEAR	DETAILS	PERCENTAGE
MCA	2025 - Present	Punjabi University, Patiala (Main Campus)	
BCA	June 2024	Desh Bhagat College, Bardwal (Dhuri)	67.26%
12th	March 2020	Punjab School Education Board (Regular)	70%
10th	March 2018	Punjab School Education Board (Regular)	64.80%
ACADEMIC GAP	June 2024 -June 2025		

- Dedicated time to preparing for competitive examinations.

ACADEMIC PROJECT

Disaster Relief Resource Allocation System **APRIL 2026**

Subject: RDBMS Project

- Designed a database-driven system for managing disaster relief resources.
- Created database schemas, relationships, and allocation workflows.
- Applied core RDBMS concepts including normalization, relationships, and resource tracking.
- Improved understanding of database design and data management processes.

Hospital Management System with ML Diagnosis **JUNE 2026**

Self-Initiated Learning Project

Tech Stack: Python (Flask), PostgreSQL, HTML, CSS, Bootstrap, Jinja2, Scikit-learn, Matplotlib

- Implemented PostgreSQL database integration for storing and managing patient records.
- Explored machine learning concepts by integrating disease prediction models using Scikit-learn.
- Developed responsive user interfaces using HTML, CSS, Bootstrap, and Jinja2 templates.
- Gained hands-on experience with application architecture, database design, and deployment workflows.

SKILLS

- Microsoft Excel - Skillful
- PostgreSQL - Intermediate
- Node.js - Learning
- Python - Basic to Intermediate

TOOLS

- GitHub
- VS Code
